BY BILL WISE
C. H. Jamieson of Hollywood
was in the lead of the fast
qualifying field at Vir-
ginia on a 77, yesterday, to win
the third low gross honors
in a stroke under. C.
H. Jamieson, who was
tied with the green
Trembley and J. R. Mc-
Keehan, will be mentioned
again.

At Virginia, yester-
day, formed around the 128-
foot hole. Heavy rains
had washed away much of
the green. The hole is one of the
most difficult in the country, with
its many turns to pass to
the lower side of the course.
Despite the fact that
the hole is the most
difficult in the course, there
are more pars checked up
than on any other hole.

In Martin, Virginia's
profes-
sional working with a partner
has his
course in very fine shape.

Now the green are
very
smooth.

They are expected
to play yesterday.

Finally, the
former president of Vir-
ginia, the club to the fore-
most, California circles and
clubs to mention a few.

SHOWS STUFF IN SIDELINE

Speed is Essential Factor in Jumping Event

Modern Record Breakers All Are Fast Runners

Vaulting Champ and Coach Work Out System

BY CHARLES HOFF

Copyright, 1926, in United States and Great Britain and in other countries by North American News Co. All rights reserved.

Charley Hoff's world's record in the broad jump of about 25 feet was unbroken for such a long time that athletes all over the world thought the limit had been reached, and that the record would stand forever. But then American athletes began to attack it.

First came the negro Butler who passed the record several times but never was fortunate enough to do it in competition to get his distance recognized.

Then came the negro Gourdin, who made a new record a little better than O'Connor's record stood for four years until the next Olympics in Paris when La Gendre surprised every one by making a new world record during the competition in the pentathlon.

The main broad jump competition, however, was won by De Hart Hubbard, a negro, with a distance of 25 feet 2 inches.

What is it that has made the new stars in broad jump so greatly superior to the old ones?

The answer is easily found—speed, speed, and still more speed.

The length of the jump is determined by the height and the speed of the athlete during the time he is in the air. But the speed of more importance than the height, which was not clearly understood once as it is now. We notice therefore that the jumps made now are always much

CHARLEY HOFF

WILSON FINED FOR SPEEDING

BY A. P. NIGHT WIRE
SEATTLE, May 4.—George Wilson of Everett, Wash., 1925 all-American halfback of the University of Washington football team, was fined \$40 here today for driving an automobile fifty-five miles an hour on a downtown Seattle street Saturday night.

lower than those of earlier jumpers.

Suppose a broadjumper lifts his center of gravity 3 feet and jumps 18 feet, he will be exactly the same time in the air as a man who jumps with a lower center of gravity and jumping 25 feet.

This clearly proves that height has little influence upon the length of the jump. We have as much speed as possible, in order to get as far forward as possible in the time one is in the air. It is seen that the jumpers tries to get as high as possible with an enormous speed, but that is wrong, because the athlete who uses the greatest speed in the air must be taken from the strength used to go forward.

The greater speed one has, the further forward he must jump the take-off foot to get any height in the jump, and that stops the forward movement.

We have tried all possible styles of broad jumps myself to study the event and have come to the conclusion that if one runs with normal speed, he need not use any strength to kick in the take-off, but merely touches the board, he gets the best distance.

BELMONT NINE WINS FROM HARDING HIGH

Coach Joe Hollinger's Belmont High tossers upset the Junior City League dops yesterday when they handed the Harding nine a 11-to-5 thumping in a game played on the lower club's home grounds. It was the second straight victory for last year's champs and families to repeat this season, and Belmont's fourth straight victory.

Belmont, 11 runs, 4 errors.

Harding, 7 runs, 4 errors.

Batteries: Watson and Campbell; Cole and Cowdill.

Where there is a good professional organization the amateur who thinks right to get compensation for his efforts should hesitate to turn professional, but when the organization professional is more dangerous are the men, there is not very strong professional organization and the amateurs do their best to stretch the letter of the law to the limit, and at

the same time nearly every line of sport.

The best thing that can happen to any sport is to have it organized, and both professional and amateur lines.

The sports in which professional

TRIPLE SLAYINGTwo Survived Machine-Gun
Fire, Says WitnessOne of Victims Identified as
Seller of BeerRoutine Testimony Given at
Coroner's InquestBY A. P. NIGHT WIRE
CHICAGO, May 4.—Two men
survived the withering machine-
gun fire which cost the lives of
William H. McSwiggin, youthful
assistant State's Attorney, and two
companions when they were at-
tacked one week ago tonight in
Cicero, West Side suburb, it was
testified at the Coroner's inquest
today.James J. Doherty, one of the
victims, was identified by John
Stege, Chicago detective captain,
as the man who supplied "good"
beer at \$5 a barrel to the saloon
in front of which the shooting
occurred.Most of the day was taken up
with routine testimony by a dozen
witnesses, describing the physi-
cal characteristics of the scene of
the shooting, the finding of the
bodies of McSwiggin and Doherty,
and of the bullet-smashed automo-
bile in which they had ridden.GIVES STARTLING TESTIMONY
It was not until the assistant
Coroner, John J. Miksek, a nickel plater, to the witness
stand that any startling testimony
was adduced.Miksek, visiting near the scene of
the shooting, had stopped to buy beer
and saw several men grouped near an
automobile, beyond which five men
were lying. Two of the figures re-
mained, their feet dragged two of
their inmates from the motor
car, thrust them in and sped away.

The fifth figure, that of Thomas

"Red" Duffy, boyhood friend of

McSwiggin, an old saloon keeper,

was left lying in the street.

Various police theories previous-
ly had been predicated upon the
possibility of the presence of one or
two others in the death car.In Capt. Stege's estimation, he
found possible substantiation of
one of the outstanding theories,

MAYOR QUESTIONED

Joseph Z. Klenha, for ten years
Mayor of Cicero, was questioned
briefly and further examination was
rescheduled.Edward Suchman, Cicero police
man, testified that for two years
the saloons had been forced to
close at 1 a.m.Much of the testimony dealt with
a small sum book, taken from
Duffy's pocket. Robert E. Crowe,
the State's Attorney, and Oscar
Wolf, Coroner, have been mem-
bered in having received the book,
but each denied that he received
it. James J. Skala, Oak Park
policeman, testified he delivered it
to Cicero police Lieutenant.The inquest was recessed until
next Friday morning, with the re-
mark from Foreman W. Baird,
Chicago business man, that "that
does not mean we will be idle; we
will be busier than if we were
listening to irrelevant testimony."

ENGLISH'S TRIALImpeachment May Delay
End of CongressFrench Debt Ratification
Faces Long WaitSenators Anxious for Early
Adjournment

(EXCLUSIVE DISPATCH)
WASHINGTON, May 4.—On a decision by the Senate as to whether to try the impeachment case of Judge George W. English of the eastern district of Illinois at once, in the near future, or at a special session following the elections in November, to a considerable extent depends the early ratification of the French debt-funding agreement, and the enactment of a foreign importation legislation.

It is expected that the impeachment proceedings are resumed tomorrow, when the House managers are to submit their reply to the defense answer. The English made yesterday formal action will be taken as to the trial. Also tomorrow the House Committee on Ways and Means is expected to have time to finish the French debt settlement, with a view to reporting it to the House for ratification. Obviously, pending development in the legislative situation, no one is hurrying to submit the debt question to a vote in either house.

If Congress is going to sit until sometime in June, as many if it is going to deal with the French debt, try Judge English and give full consideration to farm relief and other economic measures of large political significance, one sort of program will be adopted. If it is going to postpone for months the English impeachment, the chances are that the Senators who are up for re-election, some other Senators as well, and most of the membership of the Senate will be the way out, and the legislative program will be cut to the bone in the interests of early adjournment. This may defer French debt ratification until next year.

The pressure for adjournment is particularly noticeable in the Senate. Several of the leading Republicans are in evidence for re-election, and are whispering the news about that the impeachment is to go over until November, and everything else subordinated to adjournment. The two main reasons are quite indefinite about the French debt, beyond expressing a vague

REFUSES POST

Than He Does(EXCLUSIVE DISPATCH)
AUSTIN (Tex.) May 4.—William Mennike, bookkeeper in the comptroller's department of Austin is thoroughly encircled on the honor roll of "contented men."

Refusal of a better salaried position in the department because he wished "one of the clerks who actually needs it" to have the post made Mennike the topic of comment about the Capitol Building.

"I have only my wife and myself to support. My present salary is adequate for that purpose, and I have something laid by for a rainy day, there are men in this department who have families and who have not been able to save anything. I want one of them to have it," Mennike said.

hope and expectation that it eventually will be ratified. Despite their present declaration, it is to be doubted that the decision tomorrow will be as they wish. For one thing, Judge English and his army of counsel are pressing for an early adjournment. The judge's opponents are equally insistent that he shall not be permitted to remain on the bench any longer than absolutely necessary.

ENGLISH'S REPLY
CALLED "IMPERTINENT"(BY A. P. NIGHT WIRE)
WASHINGTON, May 4.—The House today approved a resolution describing as "irrelevant and impudent" the reply of Federal Judge English of Eastern Illinois to the impeachment charges filed against him.

The resolution accompanied the reply of the House managers to Judge English's statement before the Senate yesterday in defense of his official actions. The reply also was approved. It reasserted the stand of the House as stated in the article of impeachment, according the judge of wilful usurpation of authority over State officials and other high misdemeanors in office.

NICARAGUA REVOLT FLARES

State of War Declared as Government Sends Forces
Against Liberals Holding Coast Towns

(BY CABLE AND ASSOCIATED PRESS)

MANAGUA (Nicaragua) May 4.—After declaring a state of war today, the government sent military forces to the Atlantic coast to cope with a revolutionary movement started by liberals, who have captured the towns of Bluefields and Rama.

News leaking through from Paraguay, to safeguard American interests in Nicaragua.

The cruiser Cleveland, now at Panama, was selected for the mission. Naval dispatches communicated to the State Department reported merely that revolutionists had captured Bluefields after a fight, in which two were killed and several wounded.

Officials here were surprised that the Nicaraguan Government had declared "a state of war." They pointed out that such action would make it possible under law for the factions whether revolutionary or not, to import arms and munitions.

Later advised to the State Department from Minister Charles C. Elkins, at Managua, said a second attempt to capture Bluefields was made yesterday by troops of the Federal garrison and was reported to have failed.

Ministers here said the revolutionaries had declared their intention to "guarantee full protection of life and property of American citizens."

The river port of Rama was said to have been captured Monday evening by Liberals.

Thirty-two prominent Liberals of Managua have been arrested by federal authorities and imprisoned.

So many rayon factories are being started in Italy that an over-production of the artificial silk is feared.

Freak Tornado
Unroots Houses,
Destroys Barns

(BY A. P. NIGHT WIRE)

VANCOUVER (Wash.) May 4.—A freak tornado today struck the north edge of Vancouver and swept northward about eight miles, devastating a path about 200 yards wide. Trees were uprooted, barns destroyed, houses unrooted and some were shifted from their foundation.

The black cloud which accompanied the storm was seen from Vancouver, but the sun was shining in the city and no wind was felt here.

The principal damage was done in the vicinity of Mineral, a community about two miles north of Vancouver. The storm's fury was felt also at the town of Orchard, eight miles north of Vancouver.

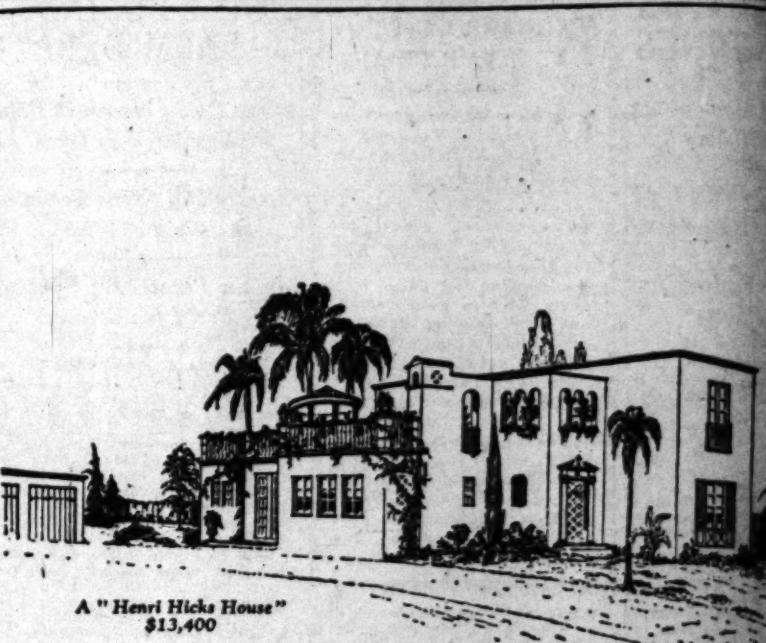

No reports of any injuries to persons were received here.

Minnehaha Falls,

(BY A. P. NIGHT WIRE)

MINNEHAHA FALLS, Minn., May 4.—Minnehaha Falls—"Laughing Waters"—made famous by Longfellow's poem, "The Song of Hiawatha," will laugh again tomorrow after being stilled for more than a year.

Low water in Lake Minnetonka, the source of the falls, has caused the creek and falls to dry up. The city has just completed arrangements to pump 1000 gallons of water per minute into the creek to restore the beauty of the falls, fifty feet high.

Many Gunboats Scheduled for Decommissioning

(BY A. P. NIGHT WIRE)

CHICAGO, May 4.—The pet parrot of Michael Goets of Morton Grove, is less loquacious than many of his kin but as a walker it is a winged Weston. "Johnny" staggered into Evanston today muddy and fatigued, from an automobile ride. The bird had walked for fifteen miles, his clipped wings preventing the more facile mode of locomotion employed by his ancestors.

When Goets went to Europe some months ago he left Johnny with Mrs. James Nugent of Evanston. Goets failed to pay a bill of \$25 for the bird's keep and Mrs. Nugent reprimanded the parrot. An Evanston constable served the writ, confiscated Johnny, and started with him to Mrs. Nugent's. Somewhere on the road, the bird left the car without even thanking the constable for the buggy ride, and walked back.

The training of reservists, and thirty-four will be decommissioned.

Assignment of aircraft squadrons to San Diego to join the sister ships, the V-1, V-2 and V-3, which will arrive here from Forts Riley, N. H., probably late this fall under convoy of the tender Argonne.

Six patrol gunboats now being built at the Naval Service on the Yangtze River when commissioned will replace the obsolete gunboats Pampanga, Villalobos and Elicano and the mine sweepers Penguin and Argonaut. These six boats will be decommissioned and sold. The Pampanga, Villalobos and Elicano were part of the Spanish fleet captured by Admiral Dewey at Manila.

The aircraft tender Wright, on completion of the Lexington, will be assigned to the Asiatic station as tender of the battleship Jason. The Jason will return to the United States and join train squadron one, fleet base force in the Pacific.

The only ships in the Asiatic fleet will be the aircraft tenders Jason and Argonaut.

The aircraft carrier Lexington, on completion of the Langley, will be detached and form an aircraft squadron of the battle force.

The 42,000-ton carrier Lexington will be commissioned April 1, 1927, and assigned as flagship of the Atlantic fleet.

On the commissioning of the Saratoga the Aroostook and the Langley will be detached and form an aircraft squadron of the battle force.

A total of 340 warships and auxiliaries will be decommissioned during the next year. In addition to the battle fleet at San Diego along with the new \$5,650,000 submarine and salvage tender Holland. The Saratoga, now at Cavite, will arrive here from Bremerton next August, relieving the Savannah, which goes to the Canal Zone.

Securities Are Exempt from Federal and State Tax

Assessed Valuation Placed at \$360,832,895

An issue of \$1,540,000 Territory of Hawaii 4% on cent twenty-thirty year public improvement gold coupon bonds, series "A," will be offered today by a banking group composed of Blair and Company, Inc., Hallgarten and Company, Horobrake & Weeks, and Chicago Securities Corporation, at 104 1/2 to yield 4.15 to optional date and 4.25 thereafter. The bonds are due May 1, 1956, with optional due date of May 1, 1946.

Territory of Hawaii bonds are issued pursuant to acts of Congress of the United States and the Legislature of the Territory of Hawaii with the approval of the President of the United States. The bonds are exempt from taxation under the Federal Income Tax Law, and by action of the United States Supreme Court are exempt from taxation by any State in the United States or by municipal or political subdivision of such State.

The bonds are an issue of exemption from taxation as United States Government Liberty 3 1/4%, and are acceptable by the Treasury Department at their market value but not as a primary security for United States Government deposits and as eligible to secure deposit of postal savings funds.

The population of the Hawaiian Islands is not being increased more through births than through immigration. Population in 1925 is estimated at 323,648, of which less than 50,000 are foreign population. The assessed valuation of the Territory, as of the 1st inst., was \$360,832,895. Total bonded debt on that date was \$19,432,223.34, not including the issue.

Practically all of the manufacturing industries of the islands result from the preparations of sugar, especially rice and other foods for commercial purposes. The industry represents about three-quarters of the total value of manufactured products. Hawaiian fruit and sugar are exported to the United States in exchange for the necessary articles not obtainable in Hawaii.

The annual output of sugar averages over 1,000,000 short tons. Rice, coffee, bananas, sisal, tobacco, rubber and cotton are other important products, while the pineapple industry ranks second only to sugar in importance. The total value of all crops in the fiscal year ended March 31, last, was \$105,504,292.

MARKET LOOKS TO LONDON

Traders More Interested in Mischievous Legislation Than in Labor Affairs; Public Holds Key

BY EARL E. CROWE

For the first time in months the stock market looks to Europe for the news that may influence the course of prices. The domestic business situation is virtually devoid of the important developments that have subordinated foreign news since the signing of the Dawes pact. In the absence now of a decisive trend in domestic affairs the speculators are watching London closely for the signal that will determine the best course of action to follow.

Labor troubles, however, have not exerted more than a temporary influence on the stock market.

One of the most striking developments in this country, the speculators have coined the maxim, "Never sell the market on strike news." They know that the result of such news is immediately made before the shortage of goods becomes acute. In the few instances in which the shortage has been so great that it has caused a panic, the speculators have jumped in and manned the mines and the factories and the railroads, with the result that the dissenting parties are quickly out of the public opinion is against them.

PUBLIC IS DICTATOR

If the English strike is the greatest in history, principles are not changed by multiplication, as the paragraphs say. In fact, the tie-up ought to argue a quicker crystallization of opinion against the threat of widespread stoppage of the down of British business. One of the most striking features of the strike is that it is not a strike for wages, but a strike for principles.

As people see it, the only cooperative effort can turn out enough goods for the normal consumption requirements of the total population. They will force the majority to put their shoulders to the wheel, also.

This is a fundamental economic fact. The more goods produced, the greater will be the demand for securities.

At that time London was the financial center of the world and was heavily interested in American securities. When any sudden demand arises for ready money, the natural tendency is to throw securities on the market, as the English did on the outbreak of the war.

Nothing like that can occur now, at least to the same extent. London is not the only large American securities market.

LA MESA, LEMON GROVE AND SPRING VALLEY IRRIGATION DISTRICT 6% BONDS, due serially January 1; 1961-1965, inclusive, are exempt from all Federal Income Taxes and taxes in California except Inheritance Taxes.

They are direct obligations of the District, payable out of annual assessments levied and collected under the same authority as taxes; and are secured by a tax lien on all lands within the District, ranking ahead of all private liens and first mortgages, including mortgages securing Federal Land Bank and Joint Stock Land Bank Bonds.

The La Mesa, Lemon Grove and Spring Valley Irrigation District, organized in 1918, is located in San Diego County and adjoins the City of San Diego for 3 miles along the City's eastern boundary—this location is right in line with the City's rapid development toward the east. Lands of the District have been appraised as having a fair valuation of approximately \$6,000,000 or 3 times the \$2,000,000 bonds outstanding.

AMERICAN IN ITALIAN ROW FREED

Charge That John Abbott Insulted Premier in Rome Shown Unfounded

BY CABLE AND ASSOCIATED PRESS
ROME, May 4.—An investigating magistrate today ordered the immediate release of John Adams Abbott, member of a prominent Boston family, and descendant of two American presidents, who was held in jail here for the last week. The charge that he had insulted Premier Mussolini was shown unfounded.

Abbott was arrested on the complaint of an Italian guide, Salvatore Astrologo, who said the American vanished in a night fight, following an argument over a respective place in line while awaiting entrance to the Vatican garden. The fight took place in front of Abbott's hotel, where Astrologo, accompanied by two friends, fought him after an argument. Astrologo received a fractured jaw and was taken to a hospital, while Abbott, while cleared of the charge, in American must still face the assault proceedings brought by the guide.

Lawyers say the quashing of the charge affecting the Premier reduces the trial to minor charges and that the penalty, if Abbott is convicted, will be very light.

PAIR GUILTY IN POLICE SLAYING

Life Sentences Imposed on Reversal of Pleas

Both Held Equally Guilty in San Gabriel Slaying

Youth Involved in Case to be Given Hearing Friday

Withdrawing their former pleas of not guilty, Charles J. Fitzgerald and Antonio Rojo, desperadoes and gunmen, yesterday pleaded guilty to a charge of first-degree murder in connection with the slaying February 7, last, of Officer Elmer H. Griffith of the San Gabriel police force.

Fitzgerald immediately was sentenced by Judge McLucas to life imprisonment in the State penitentiary at Folsom and Rojo was given a similar sentence to San Quentin.

It was indicated the accused men changed their pleas as they feared conviction by a jury on the "murder charge" as it culminates in their being sent to the gallows.

Officer Griffith was shot while attempting to search an automobile in which Fitzgerald and Rojo were said to have been passengers. According to the San Gabriel Attorney, Griffith had stopped the car as he suspected liquor was being transported in it. While he was arguing with the occupants of the vehicle, a man, one of the men in the car opened fire on him, inflicting fatal wounds. It could not be definitely determined whether the man fired on Griffith, and both were arrested on the murder charge under the provision of the Penal Code which holds that an accessory to a crime is equally guilty with the actual perpetrator.

bated the event by calling up the studio and informing it that regardless of its contention that she was an undesirable, she would not be admitted to the studio and both were arrested on the murder charge under the provision of the Penal Code which holds that an accessory to a crime is equally guilty with the actual perpetrator.

The mother charges that Marcelline's efforts later to obtain work at other studios were futile owing to an act of the Motion Picture Producers Association to stand by the Metro organization in its contention over the young actress.

Mr. Thalberg said last night that there was merely a difference of opinion between them as to whether the girl is still under contract to Metro. He said he does not think that the producers' association is indulging in any united action in support of Metro, as charged by the mother.

Ex-Wife Sought Here That Elderly Texan May Die in Peace

To be at peace with the world before he passes on to the great unknown, C. S. Burt of Houston, Tex., now wants to make amends for something that happened thirty years ago.

That something, according to a letter received from him by The Times yesterday, was a separation and divorce from his wife, whose maiden name was Emily Mann and who, Burt believes, is now a resident of Los Angeles.

Thirty years ago Burt was married and resided at Elgin, Ill. He and his wife disagreed and separated and later were divorced. His letter says, and he has never seen or heard from her since.

The writer is an elderly man and he may not have very many more years to live and desires to be at peace with the world," the letter reads.

"I would like to say here," the letter continues, "that if I ever wrote a letter to be forgiven, and if one was wrong I want to forgive."

The two have already reported on the progress of the project, it now stands, and Mr. Shaw pointed out the futility of this move.

HEN EGGS ARE SNAKE'S HIPS

Bulging Serpent Proves To Be Elongated Incubator

As H. M. Woodard, foreman of the Fred L. Hunt ranch at Ojai, with Jack Huntington and some more of the boys, crossed the corral yesterday afternoon, they came across a large gopher snake.

The size and peculiar structure of this fellow aroused curiosity. He was between four and five feet long. Woodard killed him. They saw unusual bulges and Huntington picked him up by the tail. Out of the snake's mouth, one after another, rolled eleven hen's eggs!

Mr. Hunt said he never heard of a snake swallowing hen's eggs, but down at Mesa, Ariz., five years ago a woman found a large gopher snake dead in the yard. It had swallowed one of the glass nest eggs.

Mystery, however, still exists as to the identity of the woman who has repeatedly asked, asking whether "you have found out anything about that man that was drowned?" The police have been

wholly unable to locate her.

MINSTREL NOW ANNOUNCER

Well-Known Radio Entertainer Gives Up Trouping to Take Post at KMTR Studio

BY PAUL SHEEDY

Bullock's has lost one of its real minstrels of the air. Charles, who, known to thousands as the lead in the California Blue Boys, an entertainers who have traveled more than 20,000 over the country, going at all the great stations, but always to return to their home in Los Angeles, is retiring from the entertainment field to become an announcement here in Southern California radio work. He now announces at KMTR, the Hollywood station of the M. Turner Radio Corporation.

Announcement of the appointment of the new announcer has just been made to the public at KMTR, where he and his partner, Earl Reynolds, have been favorites, although they have been equally successful in appearing at practically all the stations in the district. "Dusty" is an inseparable companion to their wanderings over the country, and is expected to return East.

He has been a radio and television entertainer in Johnstown, Pa., and Reynolds last fall and their latest joint appearance was in St. Louis. They were called to the radio by automobile. The three friends were given over to the imagination of the Arisians in their sparkling program, which was featured by a man of delightful repartee by Janet Murray, soprano.

Week was given another week mark from the tower on Saturday, May 4, at 4:30 p.m., with a splendid review of the Marine Corps Band of the Marine High School a component with pleasant numbers.

After the children's program, at which the children's hour was given by Charles Hill, the host of these twilight hours, followed by dainty little Polka, Polka, with Louise Kilmer, with Louise Kilmer, "Sweet Lou."

MEMBER OF THE ASSOCIATED PRESS
The Times aims at all times to be accurate in
every published statement of fact. Readers who
discover any important inaccuracy of statement
will prefer to do so by calling attention of the Edi-
torial Department to the error.LONG-TIME PAYMENTS
There are many things for which it is
safely wearisome to pay on "easy payments,"
but the most depressing, after it's all over,
is a war.THE MIND'S EYE
Niagara Falls is said to have lost much
of its beauty and grandeur, but the June
bride will never know it. It will be beau-
tiful to her.CONFET
One reason the marital bark runs
into so many shipwrecks is that too often
both its mates try to be captain at the
same time.ENGLAND'S TURN
There ought to be a perpetual bond of
sympathy between England and America.
Haven't we been taking turns, for
years, in undergoing coal strikes?BUTLERS DISAGREE
The other day we noted the difference
between a Gen. Butler and a general but-
ler. There's also quite a difference be-
tween the first-named and a Nicholas Mur-
ray Butler.STANDING ROOM
An English scientist says that in 1000
years the world will be so densely popula-
ted that there will hardly be standing room.
By that time we will be too tired to stand
anyhow, so what's the worry?WEEKLY ALLOWANCES
"Anyone who reflects on how most
modern girls are reared," says a woman's
magazine writer, "must make allowances
for them. Yeah, and both fathers and hus-
bands soon learn that the allowances have
to be pretty liberal, too."THE SHORT NAME
The retired bartender who appeared
for the drunks in the Congressional quiz
brought out the fact that there is a place
called Ep. It is a postoffice in Kentucky
and has the shortest name on the map.
Maybe it was named after E pluribus unum.A FINNISH FIGHT
If the traveler goes to Helsinki he
will find that the cry of the streets is "Fin-
land for the Finns." Shake the fin of a
Finn and he will tell you that he is it to
the Finnish. The natives wish to avoid
both the Russian and Swedish influence and
by their own flag under their own power.
The self-determination of smaller peoples
is not to be denied.THE EXTENSION SERVICE
The Russians would like to dominate
the east and their influence in China is
to be feared. The soviet government is
making citizenship in their sad-faced coun-
try very simple. Any discontented worker
or political refugee from any other land
can be accepted into immediate soviet citi-
zenship by appearing before one of their
executive committees and making applica-
tion. If a man is foolish enough to fall for
Bolshevism it is easy to become a com-
rade.MARRIAGE TOO EASY
It is considered rather an easy and
simple matter to obtain a divorce and it
is seriously suggested that it should be as
difficult to marry as it is to divorce. If the
bride and groom had to file notice of in-
tention and then have to wait two weeks
after publication—or if there had to be an
inquiry into their qualifications—there
wouldn't be such promiscuous marrying.
Likewise, there wouldn't be so much divorce.
It is the hasty marriage that in-
spires the early parting.THE TALLEST BUILDING
Now they propose to erect a building
in New York that will be 250 feet higher
than the Eiffel Tower. That would make
the Tower of Babel look like a dog house.
In Los Angeles the people have to turn out
and vote their consent to the erection of
a twenty-eight-story City Hall. In New
York they run the buildings up sixty or
seventy stories without getting overly ex-
cited about it or needing special permis-
sion. But when they talk of a structure
1250 feet high it would seem to be more
like a monument than a business block.EUROPEAN FLYERS
All big cities should provide landing
fields and properly equipped terminals for
fliers. Europe is doing better in this mat-
ter than in America. Capitals like War-
saw, Prague and Budapest have become
complete air terminals. There are broad
landing fields, owned by the government
and provided with hangars, repair shops
and supply stores. With the addition of
a steel mooring mast they would be ready
to handle flocks of anything that flies.
These capitals are not only the termini
of various French and German cities, but
serve as depots for many shorter systems
having planes of all sizes in regular serv-
ice.ARM RELIEF FALACY
A new sibboleth has been given to the
world. "Farm Relief" are the mystic
words whose uttering is expected to estab-
lish "open sesame" for all subscribing to
their potent possibilities. Congressmen and
Senators hopefully anticipate an ex-
tension of their lease upon the govern-
ment pay roll because of their waving of
the banner with the strange device "Farm
Relief." Farmers for whom the "relief" is
presumably designed are being lulled into
a false feeling of security by their leaders
who are really only playing at the game
of politics for what there is in it and with-
out regard to fundamentals."Farm relief" as proposed in the Haugen
and Tinch bills is as dangerous, as chi-
meric and as radical as was the proposi-
tion for the free and unlimited coining of
silver at the ratio of sixteen to one. They
provide substantial appropriations: \$375,
000,000 under the Haugen plan, to be dis-
tributed in an effort to maintain adequate
prices for basic commodities: \$100,000,000
under the Tinch bill for loans to farm-
ers' co-operative associations.This is "relief" which will not, in the
nature of things, relieve. It will be popu-
lar legislation to the unthinking with a
soviestic complex, because it seeks to dis-
tribute public funds for the benefit of a
selected class who may or may not need
financial aid. Such distribution, however,
cannot be economically sound any more
than the sixteen-to-one dream of the youthful
Mr. Bryan was sound back in 1896. It
has no more basis than the subsidy the
British government has been paying its
coal miners who wasted not an hour after
the term expired precipitating a tragedy
upon the country which had been helping to
carry their load.As a matter of fact the plan is impractical,
except from the standpoint of the profes-
sional politicians in the Senate who have
been quick to seize upon its possibili-
ties for their own aggrandizement, and it
is a matter for regret that former Gov.
Lowden and a few others who should be
able to see where the path leads are spon-
soring the efforts of Congressmen Haugen
which is nothing more or less than a
scheme to subsidize agriculture, put the
government into the export business and
make the taxpayers of the country pay the
farmers a bonus.The Times is convinced that the farmer
can only be harmed by legislation that
seeks to set up machinery to create an
artificial substitute for economic considera-
tions. Demagogues and shallow thinkers
who cannot see beyond the fact that govern-
ment money is being paid out for some-
thing the value of which cannot be estab-
lished may be expected to espouse such
projects, but it is equally apparent that
nothing but selfish politics could inspire
the ordinarily level-headed man in touch
with the facts and who knows the work-
ings of economic laws to get behind such
a false doctrine. The theory is utterly
fallacious and if not promptly checked may
bring the country into greater travail and
have even more harmful results than the
fair-silver dream brought a generation ago.JOHN HAYS HAMMOND
Monday night in the Waldorf Astoria in
New York several hundred of the ad-
mirers of John Hays Hammond gathered
to celebrate the seventy-first birthday an-
niversary of that remarkable American.
Hundreds of others in different parts of
the United States and in several foreign
countries gathered at the same time to pay
their tribute to him in local and regional
gatherings. The idea back of the gathering
was to express to him, while he is still in full vigor, the high appreciation in
which he is held. And a magnificent trib-
ute it was, with men from every walk of
life present and with letters and telegrams
of affection and best wishes from almost
every State in the Union.The Hammond career has been one typi-
cally American, the most impressive age and
teaches them patriotism, respect for their parents and
the law and kindness and courtesy to all
living things. If they adhere to Scout regu-
lation and do their one good deed a day
they cannot help but become worthy citi-
zens.The future of the country would be safe,
indeed, if in the keeping of those who have
taken the Scout obligation or have been reared
within its wholesome environment.

TOO MUCH DISCIPLINE

Now comes Basil Henriquez, English
philanthropist and student of social prob-
lems, who says that one great reason why
there is so much crime in this country is
that there is too much discipline in our
public schools. Mr. Henriquez is described
by a New York reporter as "young, blond
and very British." He is a grand-nephew
of Sir Moses Montefiore and, therefore,
doubtless feels privileged to inform us as
to the best means of educational and other
important procedure. He would have us
employ only men teachers, who should im-
pose less restraint upon schoolboys and
play with them and teach them the spirit
of sportsmanship and not of mere facts.Mr. Henriquez maintains that less
discipline a boy would work off his high
spirits in school and not work them off
than in crime. He says he has seen "Amer-
ican schoolboys sitting with folded arms,
like little angels, when they should have
been throwing paper wads at each other."It takes these highbrow young Britches
to tell us how to do it. The average
American parent would stand aghast if
told that there was too much discipline in
our schools. His firm and unshakable con-
viction is that there is altogether too little.If it makes for morality to permit
schoolboys to use their beanshooters,
carve up desks and write funny things on
the blackboard, well and good. If a big
boy should conceive and carry out the
pleasant idea of kissing the schoolmaster and
troubling the schoolmaster and thus in-
crease his chances of heaven or, at least,
of staying out of jail, it might be still bet-
ter for himself and society. A general
school riot in which all hands worked off
the youthful spirits by hazing the prin-
cipal and mobbing the School Board would
still further subserve the ends of morality.Perhaps a boy whose spirits were thus
worked off might grow up to be a Con-
gressman or a useful citizen. There is no
telling how high he might go in the social
friendships, embracing the high and low
alike.These pseudo-reformers would let the
children run the schools, use their beans-
shooters and play hooky to their hearts'
content. And they tell us we would have
no further use for prisons, scaffolds and

YOUNG CITIZENS

While giving his hearty appreciation
of the Boy Scouts and their patriotic train-
ing President Coolidge is still of the belief
that there is no competent substitute for
either religion or the home. They should
be and are the vital factors in creating and
maintaining character and citizenship.It is meet that the rising generation
should be reared and sustained under the
benign influences that grace the American
home of tradition and fact. But parents
may well approve the Boy Scout movement
in the development of character and com-
munity.The youthful bandits that terrorize the
cities are not recruited from the ranks of the
Scouts. An eastern judge says that of
more than 100,000 boys and young men who
have been brought before the criminal
courts in Brooklyn during the last fifteen
years less than a dozen had been connected
at any time with the Boy Scouts. The chil-
dren's court in New York City has not had a
Boy Scout before it during the last ten
years.The movement takes the boys at their
most impressionable age and teaches them
patriotism, respect for their parents and
the law and kindness and courtesy to all
living things. If they adhere to Scout regu-
lation and do their one good deed a day
they cannot help but become worthy citi-
zens.

THE GEORGIA IDEA

The people of Georgia are trying to
create a system of good roads without going
heavily into debt or floating a big bond
issue.The plan which called for the plac-
ing of bonds to the amount of \$70,000,000
has been defeated by the people and in-
stead of it the voters have adopted a pro-
gram of cash payments. They will build
roads to the extent of \$7,500,000 this year
and \$10,000,000 next, but the money will be
provided by ordinary taxation and the gas-
oline levy. It is figured that the money
usually paid for interest on highway bonds
would suffice for the upkeep of the roads
themselves. By paying cash now they are
not mortgaging their future or hampering
the next generation. The Georgians are
not enamored of the bond-voting craze.

THE RIGHT FUND

Wall street complains that Tammany
has been using a slush fund to clean the
highways of New York after the recent
blizzards. And why not, pray?PUTTING THE BLAME WHERE IT BE-
LONGS

By James J. Montague.

Perhaps it's the movies that Tommy has
seen.

Perhaps it's his young soul with unrest.

Perhaps it's the hooligans that make him so
keen.

For a train-robbins life in the West.

The give him his hatred of school,

And cause him to yearn for the free, care-
less ways.

Of the lads whom no sheriff can rule.

Perhaps it's the bad, wicked film that in-
spires.

His loathing to do what he's bid,

And stir him to scoff at the laws of his

sires—

And perhaps it's because he's a kid!

Perhaps it's the jazz that makes Mamie
profer.

The Charleston to good solid books.

Perhaps it's the jazz that arouses in her

An earnest concern for her looks.

It may be the saxophone's palpitate beat.

Which throbs to her immorose soul—

And wakes her in her silent little feet.

The jazz keeps her in her control.

Perhaps syncopation derides her of poise.

And gives her an impudent tongue.

And leads her to think far too much about
boys—

And perhaps it's because she is young!

There wasn't a film in the city of Ur.

Or the country of ancient Chaldees.

Yet the lads of the time made a bit of a stir.

And were somewhat unbridled and free.

To a country far over the foam.

The feet of the late Mrs. Helen of Troy.

With her moral and husband at home.

Both the jazz and the movies have lately

arrived.

To flash and to groan their appeals.

But young in all ages has always contrived

Untempted, to kick up its heels!

It is not pleasant to look back on what he reached success to know that every crook and cranny has seen a neighbor or a friend induced to deep distress. It is pleasant to behold a widow's eye, with cold and pining grieves, and know we're wrecked, his husband's trade and looks. He'd have a mate and seat him to do it. It's not a pleasant chance to go there'll be a chance of how by sheer and swerve trick we eunched, save poor Jiggle. Keeping Your Schoolgirl Complexion

By IRENE CASTLE

Copyrighted 1926 by P. O. Beauty Features

The Folly

Of using just "any good soap" on your face

The kind beauty experts use them-selves and how used

A SOAP may be good for any number of things, yet not be all suited to the skin. The only kind of soap to use on your face is soap made especially for that purpose. A good complexion is too precious for experiment.

Before Palmolive came, women were told, "Use soap on your face." All soaps then were judged too harsh.

Then came this famous beauty creation. A soap made by experts in beauty of rare cosmetic oils—and made solely for the purpose: to safeguard the complexion. A soap that command the beauty methods of the world.

Leading skin authorities urge it. It has brought natural skin loveliness to more women than any other method known. In your own interest, use it according to the following rule for one week. Note the improvement your complexion shows:

Never use "Keep That Schoolgirl Complexion."

Wash your face gently with Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with

cold. If your skin is inclined to be dry, apply a touch of good cold cream to it all.

Do this regularly, and particularly in the evening. Use powder and rouge, if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away. Just do this and keep your skin soft and lovely—wrinkles will be less a problem as the years advance.

Get Real Palmolive

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

It costs but 10¢ the cake!—so little that millions let it do for their bodies what it does for their faces.

Obtain Palmolive today. Then note an amazing difference one week makes. The Palmolive Company (Del. Corp.), Chicago, Illinois.

ROLLED
TOASTIES
—afternoon favorite

Crisp! Toasty! Tasty!—Chocolate Rolled Toasties! A welcome change from the conventional wafers or sandwiches. Served with a fragrant cup of Ghirardelli's Chocolate, Rolled Toasties are sure to add a note of delicious newness to your next "afternoon favorite".

Loaf of sandwich bread.
Filling for 16 Toasties.
1/2 cup butter 1/4 teaspoon salt
1/2 teaspoon lemon juice 1/4 cup powdered sugar
1/2 cup Ghirardelli's Ground Chocolate 1/4 cup finely chopped nuts

Cream butter, add lemon juice, dry ingredients sifted together, and chopped nuts. Remove crusts from a fresh sandwich loaf and cut in thin slices. Spread each slice with chocolate mixture, roll up, filling inside, hold together with two toothpicks. Place rolls in shallow pan and roast in a quick oven or under broiler. Remove skewers and serve hot.

Drain the syrup from a large bottle of chocolate, place in a double boiler and add one-third of a cupful of sugar mixed with three tablespoonfuls of cornstarch, one tablespoonful of grated orange rind and one cupful of water; stir well until thick and smooth; add the beaten whites of two eggs and two tablespoonfuls of lemon juice. Line a baked pie shell with halves

HOUSEHOLD SUGGESTIONS

What to Do

When polishing furniture rub with the grain of the wood.

One pound of cheese equals two pounds of meat in food value.

A few drops of glycerine added to the starch will make linens glow.

Give your hands a daily bath in lemon juice to keep them soft and white.

Whole cloves will answer the same purpose as moth balls when sprinkled through stored clothing.

Measuring Fats

When measuring butter or lard for pastries, dip the cup, spoon or measuring utensil into very hot water before using. Then you will not have to dip out the fat; it will slip out easily.

Measuring Woolens

If you find the material you have selected has not been spangled, it is wiser to do it yourself before it becomes spotted by rain. Lay the material flat on a table and place over it a wet sheet, wrung out so it will not drip. Start at one end and roll the sheet up, then together and let stand about two hours. Then press on the wrong side of the material with a hot iron. But don't scorch!

Rainy Wash Days

The lines in the basement become very crooked when you must hang laundry inside. Wooden hangers come in handy to hold dresses, night-gowns, etc., that otherwise would take up considerable space. The space required to hang the coat hanger is negligible.

Traveling With Baby

If you must travel with a very young baby, don't worry about a bed for him in hotels. Use one of the large dresser drawers for a bassinet, and lay a sheet over it, torn from your own bed. It will be just as comfortable as in his crib, with no extra trouble.

CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Breakfast

Canned apricots, custard and cool custard.

BEET TORTE

Cover a trimmed beet with a thin, just-cooked beetroot; then cover with a thin layer of cream cheese.

Lunchbox

Pasadena Official Submits
Elaborate Plan

Would Have Playground in
Every Neighborhood

To Enlarge Camps and Co-
Golf Course

By a "Times" Staff Correspondent

PASADENA, May 4.—Park playground development in Pasadena will take on a new greater meaning if the Board of City Directors and the City Planning Commission adopt the comprehensive proposal for the expansion of Pasadena's modern parks submitted to them today by Gilbert L. Shattuck, superintendent of the park department.

The proposal, which is the result of a thorough survey of the city's needs now and in years to come, embodies as its essential feature:

Establishment of a modern mountain camp in the Angeles National Forest through purchasing land from the federal government.

Development of playgrounds, park and school land so that every child will have such a home within a quarter-mile of home.

Opening of all school houses to the public on Saturday afternoons.

Summer camping of existing grounds.

Purchase of Crystal Lake in Eaton's Canyon and the construction of an eighteen-hole municipal golf course, probably on the site of the present amateur course in the Arroyo Seco.

Construction of a modern dance pavilion.

The plans were taken under advisement today by the Director and the Planning Commission.

The Hazelton piano has stood high in the regard of fine old American families for three-quarters of a century. Its deep, rich tone is full and resonant. Its construction makes it beautiful. It is essentially a piano of highest quality.

In the combination of the Hazelton Piano and the Welte-Mignon Reproducer, you will possess the ultimate in musical excellence. The Welte-Mignon was the first reproducer to be pronounced perfection by great artists, and it is still so regarded.

Come in and let us give you a private demonstration of the Hazelton Welte-Mignon.*

BOYS BOOK CENSORS TODAY

Pupils will Pass on What Modern Youth Must Read; Run City and Courts Tomorrow

"The Boy and the Book" might entitle today's page in the chronicle of International Boys' Week for this is "Boys' Day in the Libraries." Approximately 40,000 of them will assume for the day a critical attitude toward contemporary literature and through a unified program of discussion, interrogation and entertainment will express themselves on what, to them, constitutes the most interesting and worth-while reading.

The program for boys' day in the libraries, directed by Mrs. Gladys A. Clegg, has been arranged to reach every reader of books from the students of the elementary schools to the community patrons of branch libraries.

The program is for all elementary schoolboys from the fifth grade up. Ballots will be distributed among the youths on which they will express their desire to read. The topics will be modern, romantic, Indian, adventure, mechanical, etc. These ballots will then go to a council of boys who will recommend books for reading, enumerating the advantages and disadvantages of the book.

The junior and senior high school boys will, through questionnaires, be asked to outline standards for contemporary magazine editing.

Tonight, beginning at 7:30 o'clock, the branch libraries of the city will be open to boys for literary and dramatic programs for the parents of the boys.

Tomorrow, boys' day in citizenship, will be the day of the year when future male citizens be the big day of the week. It marks the occasion on which twenty-six boys will sit as city and county executives and administrative judges of the municipal courts.

Yesterday was boys' day in industry and 600 of them actually assumed executive and administrative positions in the industrial and commercial centers of the city.

Boy Scout day is Boys' Week and will be the day of the year when the members of the St. Francis Legion at a luncheon yesterday at the Broadway Department Store, at which time a number of Legion leaders, who are also active in Boy Scout affairs, were decorated with Tenderfoot Scout pins.

GETS ARMY DETAIL

Notwithstanding the fact that details have been taken away from some of the military schools because of the strike, the students in their regular lines of work, Congressmen, Swing, has been successful in obtaining the detail of an officer from San Diego's Naval Academy, Pacific Beach. Col. Thomas A. Davis, president of the academy, has been informed that Max Jameson, Peyton, now on duty with an O. T. detail at Dallas, has been recommended.

Featuring Selections from "Fliegende"

which has attracted the attention of the world, will be led to his New York musical education.

Johnson is being besieged with requests to sing selections from the opera, Lyman states.

The "Africa" Revue is continuing in connection with the "Black Bird Revue of 1926," which features Carolynne Snowden and her aggregation of thirty "Creole Cuties."

Edith Roberts, the well-known film star, will be the guest of honor at the Hollywood Montmartre this evening, when Eddie Brandstatter, owner of the cafe, will celebrate "cinema night" in honor of the film folk of Hollywood.

Miss Roberts will be the judge of the fourth of the series of new Montmartre dancing contests and will award the Montmartre trophy to the couple winning the contest.

Prof. Moors, leader of the Montmartre orchestra, is arranging a special musical program in honor of the occasion and will again provide an impromptu series of vaudeville acts, which are proving to be very popular with the city patrons.

Many film celebrities are making reservations for the evening.

Anglers at Big Bear Lake, with their well-known ravenous appetites, need have no fear of going hungry during the fishing season at that lake. Jerome's dining room at the Big Bear Mountain Ranch on the north shore is serving famous meals for its satisfying repasts.

Meals are served at all hours and anglers may bring in their catches and have them cooked to suit their tastes.

An added convenience is the presence of Jack Edwards's boat landing.

The Wanda Hathaway Revue opened at the Greenwich Village Cafe in Hollywood last Saturday with an ensemble of some of best time comedies and entertainment.

A clever dancing sextette is featured along with ensemble numbers, both novel and pleasing.

The show, in its present stage, Sally King, blue singer, and Honda Hathaway are aiding the success of this production. Cafe patrons seeking something a little different will find the Greenwich Village a charming place.

Proving the most popular show the past week, the "Springtime Revue" will start its sixth week at the Washington Boulevard cafe on Saturday night.

The third edition of the show is now playing. Features in addition to Jack Klein, the singer-producer, are Bonnie Adair, formerly of Gus Edwards's Revue; Fred Harman, recent of the Rainbow Gardens, Chicago; and Bobette Barker, English comedienne. A beauty chorus and Roy Ingram's Orchestra augment the program.

Tommy Jacobs's Lodge on Washington Boulevard at Culver City is featuring a select array of entertainers with musical numbers by Dan Schubert's Orchestra.

Included in the list are Irene McKinney, blue singer; Claire Leslie, songs; Carson and Larson, dancing team; Mel Calish and George, top entertainers.

The popularity of this cafe is evidenced by its ever-widening circle of patrons.

Film . . . what is it?

The enemy of teeth and gums

You will notice a film on your child's teeth. That's a frequent danger sign—an invitation for tooth and gum troubles. The same stubborn film that can be run by running your tongue across your own teeth.

Mere brushing won't do. You must combat it. Ordinary dentists won't fight it successfully.

Film is the greatest enemy of tooth health. It clings to teeth, gets into crevices and stays. Germs

breed in it and imperil both teeth and gums. The acid that leads to early decay forms. Old-type methods failed to combat it. So men of science engaged themselves in discovering an effective combatant—one new and different.

It removes that film

And firms the Gums

Now in Pepsodent, two new combatants are embodied—combatants approved by highest dental authority. It curdles the film, gently removes it; then firms the gums. It keeps the teeth whiter, cleaner, more sparkling. It is the modern scientific method for better tooth protection. Insist upon it. Get a tube today. Mail the coupon.

"Bleeding Kansas."

by J. CARROLL MANSFIELD

AMONG THE ANTI-SLAVERY EMIGRANTS TO KANSAS WAS JOHN BROWN, AN ARDENT ABOLITIONIST, WHO WITH HIS FIVE SONS HAD GONE WEST, RIFLE IN HAND, TO WIPE OUT SLAVERY. TO BROWN, THE ATTACK ON LAWRENCE (MAY 21ST, 1856), SEEMED TO CALL FOR A TERRIBLE VENGEANCE.

THREE DAYS LATER, BROWN, WITH A FEW COMPANIONS, RAIDED A SMALL PRO-SLAVERY SETTLEMENT ON POTAWATAMIE CREEK AT NIGHT, DRAGGED FIVE MEN FROM THEIR BEDS AND SHOT THEM DOWN IN COLD BLOOD.

THE ATTACK ON LAWRENCE AND BROWN'S RETALIATION SPEEDILY USHERED IN A PERIOD OF GUERRILLA WARFARE BETWEEN THE FREE STATE AND PRO-SLAVERY PARTIES. ONE DEED OF VIOLENCE LED TO ANOTHER UNTIL THE TERRITORY BECAME KNOWN AS "BLEEDING KANSAS."

BANDS OF MISSOURI "BORDER RUFFIAN" FREE STATE "JAY-HAWKERS" PREYED ON THE OUTLYING FARMS OF BOTH STATES AND BURNING. THEIR MOTTO WAS "THE KNIFE, THE KNIFE, AND THE KNIFE TOMORROW—THE ADMINISTRATION AND THE KINGDOM OF GOD."

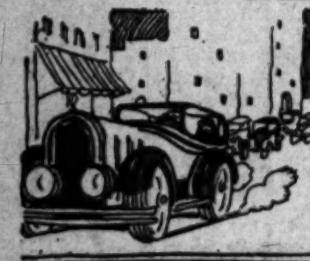

These daily history strips make a unique pictorial history of America.

Hundreds are clipping them daily and pasting them in scrapbooks.

A CHUCKLE FOR EVERYBODY

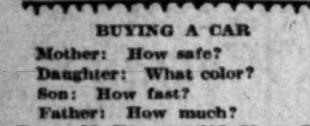

LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of \$5, \$2, and twelve of \$1 each. A list of winners, together with the names and addresses of the persons submitting the jokes, and the names and addresses of winners, appear only on the screen. Jokes receiving honorable mention will be given a place or honor on The Times coming week calendar, and each of those contributors will receive a certificate of acknowledgement.

**RUM-RUNNER
CAPTURED IN
WILD CHASE**

*Cutter Seizes Craft With
300 Cases of Whisky as
Crew Takes to Flight*

Three hundred cases of Scotch
whisky, valued at \$20,000, were
seized yesterday at Long Beach
Harbor when the United States
Coast Guard cutter CG-261 captured
the fishing boat Mauritius
after a chase of several miles. The
two members of the Mauritius
crew escaped by running their boat
close alongside the bascule bridge
bulkhead and jumping ashore as
the cutter drew alongside.

Boatswain C. W. Bain, commanding
the cutter, brought his craft alongside
the pilotless rum runner, de-
scribing a wild course about the
harbor, and succeeded in getting
two men aboard who brought her
into port. The two members of the
cutter's crew combed the water front for the crew of the
seized craft, but they succeeded
in getting away.

The Mauritius, according to Cus-
toms House records, is owned and
operated by J. Herauta and is a
gasoline-powered craft forty-two
feet long. Herauta, customs
officers declare, is also being
sought for violation of Federal
navigation laws.

The seized liquor was yesterday
morning unloaded from the Mauritius
and transferred to the United
States bonded warehouse in this
city. The cargo is believed to have
been unloaded from a three-mast-
ed Nova Scotian schooner lying off
the coast.

MEN HOSTS
TO MOTHERS**

*Speaker Stresses Need of
Teaching Youth Today
Respect for Parents*

Merchandise and money were
forgotten and 400 business men
became children in spirit when
they were hosts to their mothers at a Mother's Day program given
yesterday by the Advertising Club
at the Biltmore.

"While I am not one who be-
lieves that boys and girls are any
worse than the young people of
other generations, I do believe
there is a need for a more general
interest in the mind of children
of some of the old-fashioned
respect for parents," said Dale
Parke, chairman of the program.

Other speakers were Dr. George
Barker, president of the school of religion
of the University of Southern
California, who spoke on "Our
Mothers," and Chester Dunlap,
president of the Los Angeles High
School student body, who gave an
address on "Boys' Week."

The meeting was presided over
by Mrs. Anna E. Stetson and a musical program was given by
Mr. and Mrs. Irving Steinle, Don
Thomas, secretary of the club, an-
nounced. Those who spoke at the
round table meeting were Alice
Andria at noon on the 7th inst.
will be L. C. Lockley, who will discuss
"The Meeting."

A nominating committee, which
will suggest officers to be elected at
the Advertising Club's annual
election on the 25th inst., was
chosen yesterday by ballot. The
committee consists of Messrs. Eli-
ott Hensel, Bert Butterworth,
Roy H. Sheldon, John E. Dwan
and Ray Nimmer.

**VETERAN OF
CIVIL WAR
SUCCUMBS**

*Death Calls Col. Martin
at Sauveterre Following Four
Days of Illness*

Col. Edward M. Martin, 86 years
of age, died yesterday morning in
the Veterans' Hospital at Sauveterre,
following four days of illness. He was
a veteran of the Civil War and had
resided in this city twenty-two
years.

He leaves his widow, Mrs. Sarah
E. Martin of 1221 Sanborn avenue,
Hollywood, and three sons: George
A. Martin of 1221 Sanborn; M. S. Martin of Sacramento and H.
T. Martin, a Los Angeles bond
broker.

Funeral services will be con-
ducted tomorrow at 10 a.m. in the
Church of the Flowers at the Forest
Lawn Cemetery, Glendale, with
Rev. C. R. Hudson, pastor of the
Christian Church of this city,
officiating.

Col. Martin was born in London,
Eng., Nov. 5, 1840, and came to
America in 1845. During the Civil
War he served with the North from
1861 to 1865 on the staff of Gen.
Griffith. His work frequently
brought him in intimate contact
with both President Lincoln and Gen.
Grant and a number of letters and
citations awarded him are now
in the possession of Mrs. Martin.

After the war he served with the
Louisville and Nashville Railway
Company as a construction engineer,
a position which he retained
until coming to Los Angeles
two years ago, at which
time he retired.

The hold-up of the cigar store,
about a month ago, resulted in the
shooting of Herbert Egan. Johnson
has already been held to
answer on a murder charge.

Dep. Dist.-Atty. Scheinman pro-
secuted and Attorney Al McDonald
represented Denton.

**Eastern Judge
Praises Police
of Los Angeles**

"Los Angeles is to be commended
mentally, morally, and physically,
politically and administratively,
superior to any like department
in the East," said Judge Day, for-
merly City Prosecutor and now
judge of the Police and Sheriff
Court. He also attended the regular
meeting of the Southern California
Academy of Criminology last night. He
also attended the city for having
in the academy, where police
officers can assemble and discuss
crime problems.

"Such a thing is unheard of in
the East," said Day.

Other speakers at last night's
meeting were Dr. H. Douglas
Eaton, standing neurologist at the
General Samaritan Children's and
General Hospital, and Assistant
Captain of Detectives Longueau of
the local police.

**Plea in Usury
Case Scheduled
for Tomorrow**

The case of A. H. Seccombe, 503
State Building, charged with usury,
was heard yesterday in the Municipal
Court. Bond was set for plea
tomorrow. Bond was set at \$100.

Seccombe, it is charged, made a
loan of \$25 to Harry Morgan
of 1325 State Street, on the fifth
of April, with a lot as security, charging
more than 12 per cent interest. The
note, it is said, bore the name of
P. S. Johnson and was dated Sep-
tember 12, due May 29.

**REPORTS SHE WAS
BEATEN AND ROBBED**

Mrs. R. A. Thiele, 75 years of
age, of 825 East Fiftieth street, re-
ported yesterday she had been
beaten and robbed in broad day-
light at Forty-ninth Place and Cen-
tral Avenue. She said she was
home from a street car, she said,
when a giant negro knocked her
down and grabbed her handbag,
which contained \$15.

be placed in the hands of a jury
in Judge McLucas' court today.
He also attended the city for having
in the academy, where police
officers can assemble and discuss

Bribery Charge**

Dr. Victor Parkin, alienist, re-
quested by Judge Archibald of the
Court to make a mental and physical examination
of Gayard C. Carlisle, former head
of the science department at the
Franklin High School, who is
charged with contributing to the
delinquency of several male stu-
dents at the school.

The order was made at the re-
quest of Howell W. Richardson,
attorney for Carlisle, who is said
to have many connections with
members of the District Attorney's office.

Attorney Richardson contends
that Carlisle has been suffering
from a mental or physical condition
that is responsible for the
charges against him and that he
will be examined by Dr. Austin
C. Doan, a juror at Schwartz's first
trial on a charge of violating the
Corporate Securities Act.

Opening arguments for the State
were made by Dep. Dist.-Atty. Mc-
Kee, who was followed by
Schwartz's attorney, Dep. Dist.-
Atty. Orme, scheduled to make
the closing arguments for the defense
this morning, following in which the
jury will be instructed and will re-
turn for deliberation.

Schwartz is asserted to have
bribed Doan to deadlock on
the previous trial.

BOARDER IN GUN FIGHT WITH HOST

Both Seriously Wounded in Duel Following Row Over Woman

Charges of assault with a deadly weapon with intent to kill have been lodged against William W. Price, 57, years of age and R. L. Jenkins, 55, participants in an early morning gun fight over the asserted relationship between Price and Jenkins' sister-in-law, Mrs. Charles Martin of 1736 South Rim-pat Boulevard, according to authorities in charge of the case.

The two men are held in the prison ward of the General Hospital, Price suffering a bullet wound in the chest and left shoulder. Jenkins received a severe wound in the left arm when struck by a full discharge of shot from a shotgun said to have been fired by Price at close range.

While hospital attaches indicated yesterday that both men will recover, authorities declared that more serious charges will follow in the Price's suit for damages. The latter's condition is said to be the more serious.

Charles Martin, 48, a gold husband of the woman and wife represented in Los Angeles is held by police to have precipitated the trouble, after being held as material witness, was released yesterday by the police attorney. Martin, 48, told the full story of the affair yesterday.

According to Detective Lieutenant Stoll and Driscoll of Wilshire and Bunker Hill, who are investigating, the affair occurred as the result of Jenkins' attempting to smooth matters over after a crisis had been reached in the home because of the woman's position in the family. Price had been living at the Martin home for some time as a boarder prior to the arrival five weeks ago of Mr. Martin.

DETECTIVE LOSES JOB BY APPEAL

Protest on Fine Results in His Dismissal from Police Force

Detective Lieutenant Freeman yesterday realized that he should have let well enough alone.

The detective recently was tried by the police trial board on a charge of intoxication and conduct unbecoming a police officer and fined \$25. The verdict rankled and the detective appealed to the Police Commission.

The personnel bureau of the commission reviewed the case yesterday and not only upheld the fine but ordered the officer's dismissal from the force.

The sessions of the commission yesterday were presided over by Charles Simon of Manual Arts High School, assisted by Lloyd Bunch of Los Angeles High School, and the detective's chief of police, both having acted as part of the Boys' Week celebration program.

The commission yesterday also received its first application for a permit to conduct an audience chain sale scheme here under the provisions of the recently adopted ordinance prohibiting operators of such schemes to have a permit before they start business here.

The application came from Jacob M. Katz, representing the Jacob M. Katz Novelty Company of 6321 Hollywood Boulevard, and asked a permit to sell silk hose and underwear by audience-chain methods. Action on the petition was deferred for a week.

SUIT LOOMS ON HARBOR AWARD

(Continued from First Page) cific Company to submit second samples of piling.

AWARDED IN AUTUMN

A. T. Cassiere, port representative of the Los Angeles Cement Gun Company, attended a hearing before the harbor board in August, expecting a final decision. None was forthcoming at that meeting or at the next. It is said, but at most in a hush-hush tone, that Mr. Cassiere was absent, the contract was awarded to the Pan-Pacific or California Company.

The contract between the Pan-Pacific bid and the low bid is in excess of \$70,000. The interest on this sum, it is said, would be sufficient to cover the cost of putting down new wooden pilings for a berth, the life of wooden piling being reckoned at that period.

The successful bidders are now making arrangements to have the department property in the West Basin. It is said, none having yet been put down. Officials of the department, however, last night the piling is being constructed under specifications of the department, the type being known as pre-panning asphalt-treated concrete piling.

Eighteen thousand linear feet of piling will be required, it is said. The berth will be 97 feet long and the total cost of construction will be about \$5,000,000.

NORTH'S TROJAN CLUB TO ELECT OFFICERS

The annual election of officers of the Trojan Club of Northern California, composed of graduates of the University of Southern California, will take place at a dinner meeting on Friday, at the Seven Arts Club of San Francisco. G. Ross Henninger, the president of the Southern California alumni group, will preside at the dinner. Dr. R. B. Von KleinSmid, president of the University of Southern California, will be the principal speaker at the San Francisco meeting. Membership of the Northern California Trojan Club is made up of approximately 150 former students now located in the San Francisco Bay region.

MONEY, MONEY EVERYWHERE, BUT NOT A DIME TO SPEND

Why do wives grow cold? Various wives, naturally, have various reasons. Mrs. Kathryn Lange disclosed hers yesterday in Judge Summerfield's court. With her it was a case of money everywhere and not a cent to spend, except on first mortgages, deeds of trust, acceptances, notes of hand and other evidences of indebtedness.

"I am sick and tired of living in the shadow of mortgages," she declared. "When I admitted, was exactly why she had declined to sign any mortgages and which, according to Charles R. Dowell, attorney, why he couldn't pay much alimony." Lange sued for a divorce, charging that his wife had grown cold to him. The couple are before Judge Summerfield yesterday about alimony pending trial.

SCULPTORS DISPLAYING ART WORKS

Exhibit at Chamber of Commerce Proves Great Stride Made in Southland

Further substantiation of the often made assertion that Los Angeles is rapidly taking her place among the leading art centers of the world, is being shown at the Chamber of Commerce where an imposing collection of works by forty-one sculptors, twenty-one of whom are members of the Los Angeles Sculptors' Guild, is on exhibit. The exhibit opened last Saturday in the big assembly room on the eighth floor of the chamber building and will continue until the 14th.

Although this is only the third exhibit sponsored here by the local guild, Chamber of Commerce officials yesterday declared that it far exceeded any previous exhibition, those who planned it and vividly pictures the tremendous strides taken in this phase of art here during the past few years. The first exhibit was held less than four years ago.

A novelty in the exhibit is the "mask" by Gutzon Borglum, second largest piece shown, while the artist's newest work, a bust of a woman by one of the largest places of sculpture in existence, the Stone Mountain Confederate Army Memorial at Atlanta, Ga. Another novelty is "Home," a group of figures the figures being worked out in intricate detail, yet standing only an inch high.

On Tuesday evening a public reception by the artists exhibiting will be held from 8 until 11 o'clock and more than a score will be on hand to explain the history of the works shown.

Six new members will be initiated as follows: Earle C. Anthony, James Wood, David Blankenship, Col. Walter P. Story, Edward Van Duzen, and Frank DeMond.

President Maurice DeMond will preside as chairman with Robert S. Weiland in charge of the reception committee.

The program will include presentation of the Breakfast Club's horse badge to the policeman and the members of the police department for the past year performed the most heroic acts.

The general committee in charge

includes Norman Manning, chairman; Robert Weiland, first vice-chairman; Roland Woody, second vice-chairman; J. W. Birnbaum, Guy Price, Ham Bell, Ray Davidson, H. W. Fawke, Guy W. Fawke, Frank A. Gandy, Ralph Braddock, Arthur Webb, Allen Russell, Dr. Paul H. Roen, William Thompson, Wesley Barr, M. W. Hook, George Witte, and David Swig Ricker.

LONG BEACH DATA ASKED BY CUSTOMS

Information Requested by Washington With View to Opening New Office

Instructions to Louis H. Schwab, United States Collector of Customs for the Southern District of California, to investigate and report to Washington the amount of customs business available at Long Beach Harbor with the view of establishing a branch of the Los Angeles Harbor customs office there was received yesterday by Collector Schwab for Secretary of the Treasury Mellon.

"We will begin gathering the necessary data today and if our findings are favorable we will recommend immediate establishment of the branch once," said Collector Schwab, who has been one of the leading champions for a Long Beach port of entry, including Los Angeles and Long Beach harbors as recently approved and ordered by President Coolidge.

Collector Schwab also received a copy of a letter to him from United States Senator Shortridge under date of April 14, last, which is as follows:

"I am advised that the dredging and building of jetties to the entrance of Long Beach Harbor, Cal. are practically completed and that the official opening of that harbor is now scheduled to be held within a few days.

"I am advised that the entrance and clearance of vessels at this port is sufficient to warrant the establishment of a branch custom house at this city.

"I shall greatly appreciate your looking into this matter and as to what are the possibilities of a custom house being established at Long Beach in the near future."

TAX BOARD HACKS AWAY AT DISPUTES

Anita M. Baldwin Suit for \$59,248.40 and Others Put Over Till Today

The United States Board of Tax Appeals, in annual session in Los Angeles to clear up Federal tax disputes, yesterday met for the second day in the courtroom of United States Judge Hanning and hacked away at the remainder of sixty-six cases scheduled for hearing on Tuesday.

The principal one among these is the one against Anita M. Baldwin for the recovery of \$58,248.40.

Among the principal cases scheduled for hearing is that of the International Harvester Company.

The majority of cases scheduled for examination yesterday, however, were continued until today.
